

Weekend Excursion, Liberty

May I have a moment
Of your precious time
You feel free to tell me how you feel
So I return it kind
In essence I just want your blessing
It's all I ask of you
It'll let me know you care enough
To let me do what I wanna do

Chorus:
Give me liberty
I want my freedom
You said I should fight for what I believe in
I know it's harder to say yes than no but
Eventually you're gonna have to let me go
I'm not sayin I'll forsake your love
Cause I know that we can rise above it
If I offer my hand, will you stay with me?

I remember when
You used to say
There's gonna come a time for you to go and find your way
I may not be what you dreamed of
This song is in my blood
I know I'll make you proud
When all of this is said and done
Stay with me yeah

Chorus

I dont understand it
Why do we fight about it?
I dont understand it
Why do we fight about it?
Why should you give a shit?
We shouldnt fight about it
I dont understand it
Why do we fight about it? Yeah

Chorus
