

Ween, I'll Miss You

It could rain for a 1000 days
Or something I dont know
Look to the sun and we're having fun
Besides the river flow
You are doing this and your doing that
Working all the time
Tonight you'll call me on the phone
You've got a worried mind
And when you leave you'll go away
Gone to stay
Don't feel so bad
It was nice what we had
And you'll be glad
I'll miss you
There's a moon and it's bright tonight
The summers gone away
Stop the sweat and I'll feel alright
You know it's I like it this way
Your packing stuff for your big big move
In just a couple of days
You'll be off on your big big cruise
Across the U.S.A
Chorus
