

# Ween, MISTER WOULD YOU PLEASE HELP MY PONY?

[studio version appears on "Chocolate & Cheese"]

Alright, this is a song - what the fuck was that? -

This is from "Chocolate & Cheese", this is a - this is a song

That we wrote uh -

I don't know, probably when we wrote the rest of the songs

From "Chocolate & Cheese";

It's about a little boy and his pony

Yeah!

Sick little pony, coughing up snot

And uh- can't seem to diagnose the diagnosis

Ha, ha, ha!

It's called "Mister, Would You Please Help My Pony?"

Thank you! By Ween.

Two Three Four!

Mister, would you please help my pony?

He's over there behind the tree

He's down in the dirt, would ya help him?

I think it's his lung

Mister would you please help my pony?

He's over there lookin' at me

He's cryin' like a baby, would you help him?

I think it's his lung

Mister, would you please help my pony?

He's down and he ain't gettin' up

He coughed up snot in the driveway

And I think his lung's fucked up

Pony, Pony, Pony

Mister, would you please help my pony?

He's over there lookin' at me

He can't talk because he's a pony

I think it's his lung

Mister, would you please help my pony?

He's down and he ain't gettin' up

He coughed up snot in the driveway

And I think his lung's fucked up

That was pretty good...

That was one of the better versions of "Pony"; I've heard all week
