

Ween, Mutilated Lips

How would you feel, if I took you away
To a place I know, a place where we could stay
Called Joppa Road, a pretty place I know
where we can go, called Joppa Road
The things I feel on Joppa Road
Can make me stay, and make me go
This old road where I long to go
Called Joppa Road, where we can go
Put your best dress on, there's a place I know
Where we can go, called Joppa Road
It's a little ways, where the sun shines down
Where we drive real slow, on Joppa Road
Joppa Road, a pretty place I know
Where we can go, called Joppa Road
Hey, yo bro, that's a dude I know
Works on Joppa Road, at the Sunoco
If we drive by slow, with the top down low
We'll heel and toe on Joppa Road
(Repeat first verse)
It's a little ways where the sun shines down
Where we drive real slow on Joppa Road
On Joppa Road, Joppa Road
Baby, you look great today
