

Weeping Willows, Good Night Moon

Good night moon
You've followed me
You're my guiding light
Through this mellow night
Happiness is out of sight
Good night moon
Good night moon
You keep me safe
And you remind me of
No matter how tough
I'm still strong enough
Good night moon
You wear me out
And I'm felling used
Tired and confused
I am not amused
Good night world
Good night moon!
