

# Weeping Willows, I Can't Feel It In Here

smoking my last cigarette  
the smoke dissolves in the air  
all the secrets that we kept  
now i don't know if you care

read the signs, reading these signs  
you've missed the point  
you don't even know the point

there's lots of love all around me  
i just can't see, see it from here  
i know it's out, out there somewhere  
i just can't feel, feel it in here

a love that's never growing cold  
can we do better than this  
a love that's never growing old  
does it even exist

read the signs, reading these signs  
you've missed the point, you don't even know the point

there's lots of love all around me  
i just can't see, see it from here  
i know it's out, out there somewhere  
but i just can't feel, feel it in here

read the signs, reading these signs  
you've missed the point, you don't even know the point

there's lots of love all around me  
i just can't see, see it from here  
i know it's out, out there somewhere  
but i just can't feel, feel it in here
