

# Weeping Willows, If I Could See You One More Time

I'm in a crowd but I'm all alone  
Without you I'm so on my own  
I've got a million things I wanna say  
I woke up when it was too late

I hope I meet you somewhere tonight  
Underneath the cold neon lights

If I could see you one more time  
I just know you'd, I just know you'd change your mind  
If I could see you one more time  
I would prove, a love like ours is hard to find

I'm walking home on a one-way street  
Tonight it feels like it's hard to breathe  
My lungs are filled with low self esteem  
You're the only one that really knows me

I'll spend the night by the telephone  
I miss you so much it hurts to the bone
