

# Weezer, Change The World

You want it  
You got it

You flaunt it and  
Get your feet on the ground  
And love me right now

You like it  
You hate it

You bought it and  
Glued your butt to the sound  
And love me right now

You couldn't change the world  
To fit your little thing, ah... uh

You couldn't change the world  
To fit your little thing, ah
