

Weezer, Christmas song

You told me you would be here by my side
Warming my heart on this cold winter's night
Here I sit waiting beside the tree all by myself
You told me you would bring presents and treats(KROQ CD original)
You told me you would move heaven and earth(promo CD remix)
Cheering my spirits with homemade sweet meats(KROQ CD original)
Cheering my spirits with laughter and mirth(promo CD remix)
Here I sit waiting beside the tree all by myself
Oh, could you ever know how much I care?
Could you ever know that out somewhere
there's a boy who really hurts?
Since I've found you
I've found a girl
I've found a thorn
I've found a queen
Now I am warm
