

Weezer, Come To My Pod

Come to my pod
There's no one there,
We'll be alone.
We can talk
And if you want to we'll get stoned
And relax...
Have fun...
In my pod.

In your pod,
No one knows the things we do.
We'll get high,
If you want to we'll sniff glue,
And relax...
Have fun...
In your pod.

In your pod,
There's no one there
We'll be alone.
We can talk.
And make love the whole night through
And relax...
Have fun...
In your/my pod.

Now that we're left all alone.
Touch me and kiss me and love me.
