

# Weezer, Goddess Of Love

Until the day and my Goddess away  
For you under planet and feed you a pomagranite  
And the snakes, wish to rape  
The lady will be faking love  
From a firey pit

And when the night's moon  
Lights up a bright room

I watch you rest with lunar eclipses  
Come up from a Goddess Of Love  
Come with me Goddess Of Love

Goddess Of Love  
Goddess Of Love!
