

# Weezer, O Girl

Aaah

O girl, you look sad  
Burnt out and half gone mad  
Still filling up the place  
With tears on your face

Freaked out and scared to move  
You don't wanna have to prove  
That you're among the same  
Pining away

O girl, I thought you were cool  
Until you tried not to get hurt  
But now I see in your eyes  
The pain that can't be just mine  
You're like me

O girl, you're trembling  
??? ...and stumbling  
That you're among the same  
Please go away

O girl, I thought you were cool  
Until you tried not to get hurt  
But now I see in your eyes  
The pain that can't be just mine  
You're like me
