

# Wehrmacht, Blow You Away

You've seen the rest now hear the best  
We've come here to say total thrash we play  
Crush all the fags they have no say,  
uncontrolled power we can blow them away

(Chorus)

Bursting your ears spurting mass blood,  
poser control will steal your soul, we've  
come to bash to pound and smash, we're here  
to stay; coe to blow you away

Thrashing your heads  
Sloshing your brains  
Intense painful whiplash  
We will take the blame,  
each song results in total mayhem  
we'll never slow down, the heaviest around

(Repeat Chorus)

Enter the pit then skank or die,  
Dive off the stage yes you can fly  
Stomp on your face the mersh I dread  
Don't sit around get slammed instead

(Repeat Chorus)
