Welbilt, Anthem

If I was strong I would never lose
If I could see it all I would look for you
If I had everything my way
And if I was high I'd come down for you
If it was all a lie I could make it all true
If I was everything you say

Chorus
This is your song
These are the right words to say
This is the life that I live every day
This is your voice
This is my red, white and blue
This is my anthem to you

And if I was tall I could see for miles
If I had all the time I would stay awhile
If I had everything my way
And if I had faith I'd believe it all
If I could hold on I would never fall
If I was everything you say

Chorus
This is your song
These are the right words to say
This is the life that I live every day
This is your voice
This is my red, white and blue
This is my anthem to you, to you

And if I was high I'd come down for you
If it was all a lie I can make it all true
If I was everything you say

This is your song
These are the right words to say
This is the life that I live every day
This is your voice
This is my red, white and blue
This is my anthem to you, to you

This is your song
This is my red white and blue
This is your voice
This is my anthem to you, to you
