

# Welbilt, Moonshine

Another night once again  
It's a one night stand  
I'm not your guy your kind of man

But you bought me those drinks  
now I can't think on my own  
You still took me home

Chorus

It's been a long time  
Been a long time I think  
Tonight I've had way too much to drink  
In the light shines grace with no particular face  
I don't think I'm winning this race  
And I don't know where you're running to  
And I don't think that I'm getting through  
It's the moonshine  
Making everyone look so fine  
It's the moonshine  
You say one more shot then it's one more bottle of wine

And I hope I wake tomorrow with you by my side  
Don't think about wrong cause it feels so right  
We don't want to go home lonely tonight  
Feeling irie in this drunken delight

Now the suns coming up  
I don't remember much  
Except your bed and those handcuffs

Some call it the walk of shame  
To me it's all the same by the way  
Could you tell me your name again?

Chorus

It's the moonshine  
Making everyone look so fine  
You say one more shot I said one more bottle of wine

And I hope I wake tomorrow with you by my side  
Don't think about wrong cause it feels so right  
We don't want to go home lonely tonight  
Feeling irie in this drunken delight

Chorus
