

Wellwater Conspiracy, Red Light, Green Light

You hold on to the hand
You're the devil by the lake
And it stares into your eyes
Are we surprised? (?)

You're so green
I'm already red

Back into the wall
So soothing in the source
And it's too late to go back
You have the drug there's never enough
Never enough to, well the size (?)
I look surprised

I'm so green
You're already red

So soothing
(You're already red)
Don't look surprised
