

Wendy And Lisa, Bring You Back

What if I lay right down beside you
Would it comfort me
I know that I would die to bring you back to me
oh me
Feels like nobody feels like I do
What could I do to bring you back to me
oh me

Where are you
I need you
I'm searching and I can't find you
Can't you see me from where you are
oh oh oh oh
Bring you back to me (3x)

What if I lay right down beside you
Would it comfort me
I know that I would die to bring you back to me
oh me
Feels like nobody feels like I do
What could I do to bring you back to me
Oh, bring you back to me (4x)
