

# Wendy And Lisa, Let's Say

lets say  
we were 17  
billion miles  
from anything  
would you still  
hear the phone ring  
where's my  
answering machine

sometimes i cant sleep at night  
wonder what it would be like.....

lets say  
we were fast asleep  
holding hands  
under the sheet  
would you think  
it was a dream  
would you  
r. e. m. with me

sometimes i cant sleep at night  
wonder what it would be like  
if you were to run away with me  
...would you run away with me ?

if we could just close our eyes  
drift away  
and find a good place to hide  
run away

lets say  
we had everything  
fancy cars and big t.v.s  
would you  
find it all  
boring  
lets just sit  
and  
watch it rain  
or  
we could just close our eyes  
drift away and find a good place to hide  
run away

if we could just close our eyes
