

# West, Gould & Fitzgerald, So What Does It All Mean

The day I first met you  
Well I thought you were quite funny  
Your eyes were so damn blue  
Your smile was a drug  
Your style was money  
What does it all mean  
To find someone that makes a cry inside  
Got the players on her team  
Oh how can I smile  
When all she did was say hi

That one day when he's gone  
I'll get my chance to ask you out  
and then I'll show my colorful life  
My colorful life

I'd like to be like you  
With a rep like yours my little honny  
I'm not sure what I can do  
Just know that I ain't no false money

What does it all mean  
To try so hard to get the right words out  
Well I wish I could come clean  
I've given my all but I have my doubts

That one day when he's gone  
I'll get my chance to ask you out  
and then I'll show my colorful life

That one day when he's gone  
I'll get my chance to ask you out  
That one day when he's gone  
I'll get my chance to ask you out  
That one day when he's gone  
I'll get my chance to ask you out  
and then I'll show my colorful life  
My colorful life  
My colorful life
