

Wester, The Monster Squad

(You tell me that i'm the monster
But look what you've done now) x2

We watch the candle light flicker...
I've never been sicker
Of hearing the breaths that escape from your lungs.
I never grew tired of staying up late
With the one thing I knew that I never could hate.
Now I'm sleeping in late,
The world won't wait for me,
Sleeping in late,
The world won't wait for me.

I'm not the kind that lives underneath your bed,
I'm the one that got in your head,
Your heart,
Your eyes,
Your mind.

(You tell me that im the monster,
But look what you've done to me now) x4

I'm not as scary as you,
You like to make me out to be.
I'm not as scary as you,
You know this is everything you need.

You will never regret this as much as I do,
I'll never forget all that I held true.
You will never regret this as much as I do,
I'll never forget all that I held true.

I'm not the kind that lives underneath your bed,
I'm the one that got in your head,
Your heart,
Your eyes,
Your mind.
