

# Westlife, Lost In You

There's no more waiting  
Holding out for love  
You are my Godsend  
That I have been forever dreaming of  
My angel from above  
Heaven knows  
I'm head over heels and it shows  
I've played every field I suppose  
But there's something about you  
When you're around  
Baby I have found  
I get lost in you

What is this feeling  
I've never known before  
That I should touch you  
Swearing to surrender ever more  
That's what I came here for

Heaven knows  
I'm head over heels and it shows  
I've played every field I suppose  
But there's something about you  
When you're around  
Baby I have found  
I get lost in a wonderful daze  
Lost in your wonderful ways

Heaven knows

When you're around  
Baby I have found  
I get lost

Heaven knows  
I'm head over heels and it shows  
I've played every field I suppose  
But there's something about you  
When you're around  
Baby I have found  
I get lost in you
