

# Westlife, Where We Belong

Being interviewed by somebody,  
In the hotel lobby,  
She says where do you come from,  
Now i really like to talk about it,  
But if you write it,  
Please don't get it wrong,

Mum said you should always aim high,  
Do it again with the glint in his eye,  
She would never lie,

And now we're 4 years on,  
Feels like we've just begun,  
Never forget this is where we belong,  
Everytime that we talk about movin on,  
It turns into a song,  
Coz together were strong,  
Like the place we come from,  
This is where we belong,

Next question,  
But ive heard this one before  
No were not about to stop (no no)

So let me ask you something  
When you got something as good,  
Tell me why would we give up?

Mum said you should always aim high,  
Do it again with the glint in his eye,  
She would never lie,

And now we're 4 years on,  
Feels like we've just begun,  
Never forget this is where we belong,  
Everytime that we talk about moving on,  
It turns into a song,  
Coz together were strong,  
Like the place we come from,  
This is where we belong,

Last question,  
Now I've really got to go,  
To the next time,  
Yeah yeah

And now we're 4 years on,  
Feels like we've just begun,  
Never forget this is where we belong,  
Everytime that we talk about moving on,  
It turns into a song,  
Coz together were strong,  
Like the place we come from,  
This is where we belong,  
And now we're 4 years on,  
Feels like we've just begun,  
Never forget this is where we belong,  
Everytime that we talk about moving on,  
It turns into a song,  
Coz together were strong,  
Like the place we come from,  
This is where we belong.
