thats the way the ball bounce and I often wonder why,
but I needs it all and not just a piece of the pie,
I used to hope and wish for everything I couldnt buy,
was a young ghetto boy that grew up in the "l";
so I vowed to be a hustler and reach for the sky,
and only am I ballin'right now cuz of mo' tie.

in the city of locs, no hopes and rolemodels
The black sheep of the family, destined to fail
Predicited to spend my hole life in a jail cell,

and ask him fo forgiveness to minimse my stresn'
and continue to learn how to dodge these smith n wessons
and with his help I will perform at my best,
and its still hard with all this temptation and testin,
and if im wrong I just accept as a lesson,
as I conquer all my enemies and mash em with aggression,
