

# Wet Wet Wet, Bottled emotions

Baby get on down  
Baby get on down  
Get on down if youre keen for loving  
Get on down if you feel for my soul  
Baby get on down  
Baby get on down  
Get on down if youre keen for loving  
Get on down  
Who  
Baby get on down  
Baby get on down  
With my arms open wide  
Say Id long to throw away my pride  
And truly in respect of one and all  
My feelings wanna show  
Oh baby cant you see  
That I want you by my side  
After all said and done  
And so Ill take a torch from my bottled emotions  
Sure feels good to be by your side  
In my mind  
Went to the top I thought was the easiest way out  
And everybody needs somebody  
Cmon  
Gonna dedicate this song to you  
And feelings fools like your woman  
And sure good enough to see  
And I need you by my side  
Say we all do harm again  
And so Ill take a torch from my bottled emotions  
Sure feels good to be by your side  
In my mind was made up  
But my mouth kept talking  
Sure good enough to see you by my side  
Get on down if you are keen for loving  
Baby get on down  
Baby get on down  
Get on down if you are keen for loving  
Get on down if you feel for my soul  
Baby get on down  
Baby get on down  
Woh  
Your love takes me higher  
Baby get on down  
Baby get on down  
Get on down if you are keen for loving  
Get on down if you feel for my soul  
And tell me loving  
You tell me loving  
And itll take me higher  
Theres a higher
