

# Wet Wet Wet, I Wish

Come on up, hey little darling

That was the way when I first met you baby  
You weren't right for me  
I didn't really care  
Act quite naturally

She said  
Went on a boat going down by the river  
Plenty more supplies  
Seen a lot of planes going up in the air

Do you ever get the feeling  
That you want to fly like a bird in the sky

Hey Lucille, you'll be the talk of the town  
Lucille hey, you'll be the talk of the town  
She met a young man called Johnnie  
He played a little mean guitar

No matter how hard I try  
I want to fly like a bird in the sky  
I want to fly like a bird in the sky

I wish I could take time  
I wish oh I wish so hard  
I wish I could take time  
I wish oh I wish so hard

Living the night, doing it wrong

It's a little lonely without you  
The feeling was strong  
The world was holding on  
I want to be on my own

I wish I could take time  
I wish oh I wish so hard  
I wish I could take time  
I wish oh I wish so hard

Won't you stay with me

Take from me what I take from you  
You can take from me what I find in you

Come on, tell me, tell me, tell me

I wish I could take time  
I wish oh I wish so hard  
Hey, I wish I could take time  
I wish oh I wish so hard

Say I can't get by without your love  
Say I can't get by without your love

Say I can't get by without your love  
Say I can't get by without your love

I wish I could take time  
I wish oh I wish so hard  
I wish I could take time  
I wish oh I wish so hard

I wish I could take time  
I wish oh I wish so hard
