Wet Wet Wet, Step By Step

Look what you've done
You've gone and made a big mistake
Lucky for some
I'm tripping out on your parade
I'm lying all night long
Wondering if you'll ever come
It took me all night long
To figure out there's something wrong
Ste by step, day by day
With your love I'll find away
No more tears, no more pain
Let me see your love again
Let me see your love again

That look in your eyes
You know, politely says your goodbyes
Moment has calling, penny has fallen
And you could end up with no change
I'm lying all night long
Wondering if you'll ever come
It took me all night long
To figure out there's something wrong
Step by step, day by day
With your love I'll find a away
No more tears, no more pain
Where there's a will there'll be a way
There'll be a way

More than words could ever say Talk is cheap who's gonna pay Tender words I wanna hear Love so close and love so dear Let me see your love, again

Step by step, day by day With your love I'll find a way No more tears, no more pain Let me see your love, again Step by step, day by day I'll find a way
