

Weta, Hole

Still keeps coming back to me
Coming in like a tidal wave
Wake up in another day
Fell asleep at the alter
Thinking how things never change
Come in then go out again

I'm walking out on you
So long yeah
So don't come back this way
This time forever

Living in a world of dreams
And then there's make believe
The grass is never green
Don't wanna think of the future
The here and now's a good place to be
So forget the past

I'm walking out on you
So long yeah
So don't come back this way
This time forever

I'm walking out on you
So long yeah
So don't come back this way
This time forever

Yeah yeah
Yeah yeah
Yeah yeah
Yeah yeah

Yeah yeah

So long yeah
So long yeah
