

Wham, Like A Baby

Foreign skys
Blinded me
To empty jaws
Across the ocean
So sure, so wrong
You sang me a simple tune
I took it for a song
Save me now
And tell me why you have to
Never knew was as good as gone
As good as gone
I longed to love you
Really the part you see there's something you should go
I really think you'd go
Because today I could have sworn I heard you say
I love you, I want you, I need to be with you today
I saw something in your face
Stay here, beside me, I need your love to hide me
And now you've gone away

You left me crying' like a baby

Like a baby
