

Wheat, Roll The Road

Got a wall inside you somehow
You keep it covered up
When the phone rings
Got a wall inside you now
But you keep it covered up
And build a wall inside you
But you keep it covered up
Got a house up above it
Somehow you keep it covered up
Down inside you got a wall around
Somehow you keep it covered up
Down inside you
And roll the road beside the water
Down inside you
But you keep it covered up
And think oh well
Down beside you
But you keep it covered up
I think oh well
Down beside you
But you keep it covered up
