

When November Falls, My Heart

She came in like the wind
And took me over
A southern kind of day
A wicked sun
I fell into her will
I'm on the floor now
And every time she sang
I come undone
It's my heart (heart)
It's my heart

The memories will fade
Like ghosts of summer
The way she makes me feel
Cant stay for long
And then I saw her face
The sun froze over
And every time she sang
I come undone
It's my heart (heart)
It's my heart

Can you give love?
Can you give love?
Can you give love?
