

# When September, Get What You Paid For

It's raining in your face  
But the sun is all around  
Get onboard a plane where it keeps it on the ground  
You try to fall asleep, keep falling out of bed  
It's on the tip of your tongue, but it never leaves your head

chorus:

Everywhere you go is never better as you regret it  
You never get what you paid for  
Everything you do you never make it cause you can take it  
You never get what you paid for  
nananananana nananana nanananana  
nananananana nananana nanananana

You meet somebody new  
Time to get a life  
Cooking for two and meet Charles up with his wife  
It's moments people said; Your name is like a curse  
If somethins really bad, you can always make it worse

Chorus

Everywhere you go its never better as you regret it  
You never get what you paid for  
Everything you do you never make it cause you can take it  
You never get what you paid for  
nananananana nanananana nananananana  
nananananana nananana nanananana

Behind you love, you come when they go  
You'r fallin, crawlin forever  
nananananana nanananana nananana  
nananananana nananana nananana

Chorus

Everywhere you go its never better as you regret it  
You never get what you paid for  
Everything you do you never make it cause you can take it  
You never get what you paid for  
nanananana nanananana nananana  
nanananana nananananana nanananana
