All-all-all-all your love  
Yeah - eh eh eh yeah eh eh  
If you desire I can bring you the moon  
It's not so hard when I'm right next to you  
'Cos anything yes I feel I can do  
Just say - You got to gimme all your love  
You wanna ride upto the shining stars  
It ain't so bad, baby nothing is hard  
'Cos anything just to be where you are  
Oh say - You got to gimme all your love  
Gimme your love, give it to me  
All your love, you got to gimme all your love  
Gimme your love, give it to me  
All your love, you got to gimme all your love  
You got to gimme all your love  
Hey yay  
You wanna see all the world in a day  
Your trust in me I will take you away  
'Cos anything so that you're gonna say  
Just say - You got to gimme all your love - ah-a  
And if you see what the future is like  
A pleasure ride through the passage of time  
'Cos anything just to be in your mind  
Oh say - You got to gimme all your love  
Gimme your love, give it to me  
All your love, you got to gimme all your love  
Gimme your love, give it to me - Yeah eh
