Won't you touch me baby boy  
I need happiness so let's rejoyce  
Feeling motion trip your body  
You'll be forever my baby boy  
Just caress me baby boy  
I need a little love and you're my choise  
Feel sensation lift your body  
We'll be together my baby boy  
My my my my my baby

Feel the flame right in your body
