

Whigfield, Close To You

Nobody pays
Much attention
They misuse their time
Maybe it's better to mention
Moments passing by

A secret to tell
I got something
They don't have
And baby it's you that
Is lifting me high

I just wanna be close to you
'Cos I understand
The strength of your hand
Oh and love that you
Put me through
You're more than a friend
So love me again

Baby you're full of affection
People stop and smile
Maybe they see my intention
To make life worthwhile

A secret to tell
Now there's nothing
Holding back
'Cos baby it's you that
Is making me fly

I just wanna be close to you
'Cos I understand
The strength of your hand
Oh and love that you
Put me through
You're more than a friend
So love me again

I just wanna be close to you
'Cos I understand
The strength of your hand
Oh and love that you
Put me through
You're more than a friend

A secret to tell
Now there's nothing
Holding back
'Cos baby it's you that
Is making me fly

Oh baby oh yeah
Love that you put me through
Love that you put me through
