

White Kaps, Binge

A while back, my friends used to tell me how great I looked, and why didn't I have a big beer gut like

But I didn't know they'd shock the shit out of me!

Plug me in, arc my brain, make me never drink again.

Cost me a hundred bucks, now I got no sense.

Can't get a job, gotta live in a tent.

Walk'in 'round this town, people spit on me.

Electricity on my head, now I barely see.

I got dirty clothes on, closet in a box.

Women's shoes on my feet, but there ain't no socks.

Don't know what my name is, seems it used to be Luke.

Sleeping in the gutter, drowning in my puke.

Binge and purge, binge and purge,

here it comes I feel a surge!

Binge ... Purge ... Binge ... Purge ... Binge ... Purge ... Binge... Purge ... Binge ... Purge ... Binge.Bi
