

White Kaps, Dug That

Taking life slow and taking it easy
You wanna be like me but you can't be sleazy
Life goes quick and life goes fast
Everybody wants a good thing to last
Take care of yourself and try to act old
You've got no balls and you've never been bold
Why - People are weird
Why - Ones that you feared
Why - Who have you cursed
Why - Who dies first
I've already been there and I've already dug that
I've already been there and I've already dug that
I've already been there and I've already dug that
I've already been there and I've already dug that
Been there - Oh yes I've seen this and I've seen that
Been there - Oh yes I've dug this and I've dug that
Been there - Oh yes I've fought this and I've fought that
Been there - Oh yes I've drank this and I've drank that
Been there - Oh yes I've fucked this and I've fucked that
Been there - Oh yes I've drank this and I've drank that
And I've been there before
It's time to say bye cuz it's time to go
You wasted your life you didn't star in your show
You took no risk and you've took no chance
We've played the music but you didn't dance
Don't take your life so slow because your life goes by fast
