

White Kaps, Germs

your authority
comes with a life, superiority
locked in a realm of deceit
ripped far away from reality
soon you will kneel to the masses
beg they don't take away
your authority
you've been pushing on germs like me
suddenly you have the right
to deal pain to the masses
and i know, you enjoy it
do i know, you enjoy it
yes i know, you enjoy it
i know you get high off it
and i know this germ is never gonna get it
