

White Kaps, Reign

Act my age is what I'm told
By hypocrites who are bitter & cold
People come to me and say
You can't continue life this way
Take your life into a hole

Your loss my gain I've got full reign
Plus I don't need you
Your loss my gain I've got full reign
Plus I don't need you
Your loss my gain I've got full reign
Plus I don't need you
To tell me what to do
With my life and I'm here to tell you
That can start right now

Start right now & strive to be
An unambitious bore like me
Take your life into a hole
Let normality drain your soul
Settle down - be mature
Be mature - settle down
Don't have a problem that's not my cure - not my cure
Never try - please their needs
Please their needs - never try
When they make a cut it's you that bleeds
