I feel the same
Well take it from me
What else could you do?
Where do you get off
And how can I get there, too?
All your time well call well dignify
And now it seems to be cut + dry
So I know which way to run
Youre tired my love
I feel the same
Youll never come back
My god cant you see that
I know which way to run
Youre tired my love
I feel the same
The ... wont speak my name
Well if you wanna seee you rise and shine
It might not be true but this is fine
Cause I know which way to run
Youre tired my love
I feel the same
The ... wont speak my name
Now even this were jumping ship
Just give me some piece of mind
Cause I
