

White Rose, Misswhiterose

My name is MissWhiteRose

I'll shoot you down,
be quick before I release the hounds

I gotta sharp tounge
just like my blade

and just like mercy
your blood will fade

you think i'm scared but I got no fear
my flow is hot, my brain is seared

my rolemodels Em

he keeps me in check

and when I bust hoes hit the deck

just listen to my Mack Tack Tech

I'm not the one soundin like a wreck

but keep on tryin' and keep on dyin'

you might just make a sing,

on a hometown line!

(background holla) "I doubt it, haha"

(Hook)-You think that I, as in me, as in Queen Bee

am scared of a teared mother fuckin he-she

well your wrong, this my song

and ya'll waited to long

(repeat *2)

(music 10 sec.)

Now you all heard from me,

the white rappin' she

so i'm gonna leave you with my taste in your mouth

but before I go I gotta give a couple shout outs

First to Karla, the Puerto Rican gyrl

she's so precious, just like a pearl

second to andre', he started me off

even though his love, started to cough (background holla) "but we tight homey"

next it's Bibbs, yeah he made me mad

but if he didn't, I never would have wanted this dream so bad

4th to Em, he is also white

but his raps are best, am I right?

Now to Miss Hilton, Paris, she's great

she's so beautiful, someone I never could hate (background holla) "damn so sexxy"

Now last but not least, it's Gloria Valez

she's in the videos, done rapped like a breeze

Now thats some of my people, yeah there are more

but those are the ones, that have reched my core
