

# White Skull, Cleopatra

Southern throne is this your fast realm  
Shinin' sun, wherever she stands on  
It's glitterin' around, Egyptian star  
Deep in love with Caesar the oppressor  
Full of hope winnin' all her hardest

Oh bring me on  
to your soul your world let me know

(Chorus)  
Cleopatra daughter of the Sun  
Mother bride 'n' ruler of the Egyptian land  
Cleopatra daughter of the Sun  
Soon you will become the new deity

The baby's in her arms exclaiming all his rights  
Still stands on looking at the Roman faces  
Full of pride, she will divide  
Caesar love it's not enough to her now  
She needs more, she in need to  
Face her destiny and became the Egyptian guide
