

White Town, Give Me Some Pain

Well I've been around, I've seen the world,
I've met many women down like you,
But don't you think it's time you took control,
And taught me what you want me to do?

So baby give me what I want
Give me what I want
Give it to me all the way

Give me what I want
Give me what I want
Give it to me night and day
Give me some pain
Give me some pain

Love is a many splendoured thing,
But only on a bed of trust,
So wipe away my past with your sweet fists,
And show me the freedom of lust

And baby give me what I want
Give me what I want
Give it to me all the way

Give me what I want
Give me what I want
Give it to me night and day
Give me some pain
Darling, won't you give me some pain

Give me what I want
Give me what I want
Give it to me all the way

Give me what I want
Give me what I want
Give it to me night and day
Give me some pain
Darling, won't you give me some pain
Won't you give me some pain
Darling, won't you give me some pain
