

Whitehouse, My Cock's On Fire

Start the engine
Let's go
We're heading for the strip
Where the night-time's hot
Looking for some action
Hey, here's one for the boys
She'll do for starters
Come on, honey
Come on, sweetheart
You don't have to say please
Get down for pleasure
You know what we want
And we know what you need
My cock's on fire
Ready for action
A piece of action right now
Hunting the streets
Looking for tail
Like white death
We're kicking ass tonite
