

Whitesnake, Don't Fade Away

As I stand at the crossroad,
I see the sun sinking low...
With my cross of indecision,
I cant tell which way to go...
Now I have seen the seven wonders
And I have sailed the seven seas,
Ive walked and talked with angels,
And danced all night with gypsy queens...
All in all its been a rocky road,
Twists and turns along the way...
But, I still pray for tomorrow,
All my hopes, my dreams
Dont fade away... Dont fade away...
I have painted many portraits,
Memories of love and pain,
Though cut down by lifes deceptions
I found the strength to start again...
All in all its been a rocky road,
Twists and turns along the way...
But, I still pray for tomorrow,
All my hopes, my dreams
Dont fade away... Dont fade away.
Heaven help a man
Trying to make up his mind,
With the darkness closing in,
I feel Im running out of time...
Shine a light for me,
Help me find the way to go,
And take me where Ive never been before...
And so I stand at the crossroad,
Watching the sun sinking low...
With my cross of indecision,
Trying to find the way to go...
All in all its been a rocky road,
Twists and turns along the way,
But, I still pray for tomorrow
All my hopes, my dreams
Dont fade away...
