

# Whitesnake, Lady

You've got a thing about us cocaine eyes  
You've got the heat baby dizzying lies  
With roses in her hair and a  
Devil may care attitude  
She never said she would stay by my side  
She only wanted to be there for the side  
A bottle of wine and a couple of lines  
And she was there for the night  
Trying to change her ways  
I'm glad I gave her a golden hare  
Oh no this ain't no place for me  
Angel of mercy, Angel of greed you never stop till you get what you need  
Dances like she know me and  
Cuts like a matter of talk  
I said baby won't you slow down for me  
You've got to move if you want to be free  
Like the wind I was blowin' anyway I please  
Trying to change her ways  
I'm glad I gave her a golden hare  
Oh no this ain't no place for me  
Lady you're my lady  
You're my woman  
Got the love I need  
You are my woman  
Trying to change her ways  
I'm glad I gave her a golden hare  
Oh no this ain't no place for me  
(Break)  
Trying to change her ways  
I'm glad I gave her a golden hare  
Oh no this ain't no place for me  
Lady you're my lady  
You're my woman  
Got the love I need  
You are my woman  
Lady you're my lady  
You're my woman  
Got the love I need  
You are my woman
