

Whitmore, Promises

I can't hold on to what I've found
Some broken glass lays on the ground
I can't hold onto what's outside

Can't take a word that you say but I say alright
Can't take the promise you made but I say alright

Come my way
Pull the plug and watch me drown
See me washed up on the shore

I can't hold on to what I've heard
My friends are hurt it hurts me worse
I can't hold on this time it's life

Can't take a word that you say but I say alright
Can't take the promise you made but I say alright

Come my way
Pull the plug and watch me drown
See me washed up on the shore
Come my way
Pull the plug and watch me drown
See me washed up on the shore

Just wanna figure out
Just wanna find myself
Just wanna figure out

Come my way
Pull the plug and watch me drown
See me washed up on the shore
Yeah yeah yeah yeah

Come my way
Pull the plug and watch me drown
See me washed up on the shore

Well on the shore
