

Whitney Houston, Love will save the day

Sometimes life can make you crazy
It can really put your body to the test
You try so hard to make sure everything goes
right

And you find you've only wound up with a mess
It's a common situation

Even though you feel abandoned and alone
Child, you ain't the first to experience the hurt
So don't panic when you hit the danger zone

Chorus:

What you need's a little change of heart
Forget this fear and frustration

Love will always play the greater part
When your battles wear you down

Here's my advice -

When you're feeling down and out
And you've got troubles on you mind

Love will save the day

When you're feeling full of doubt
And fear has got you in a bind

Love will save the day

When your worlds falling apart
All you have to do is say a prayer

And love will save the day

There's an answer in your heart
So let your light shine on my dear

And love will save the day

Love will save the day (X4)

Many things in this world bring you down
It's a wonder you can make it through the day
Well, you can't sleep cause your problems are to
deep

And there's always something getting in the way
And when you turn on the evening news

Mass confusion is the only thing you see

Well there's no question that we need a new
direction

Cause we all could use some peace and harmony
chorus

Love is gonna save the day

You've gotta believe it
