

Why Don't We, With You This Christmas

remember last December when we kissed under the mistletoe
I let you wear my favorite sweater
so you think of me when you're alone
when we stay up talking way too much
and we don't even need coffee to keep up up, no
I know that I am feeling something right
when I am next to you

it's cold outside when I am without you
but you make me feel so warm
baby, can't you see /2x
that I want you?
yeah, I just wanna be with you this Christmas
this Christmas /2x

and to be honest
I can't live without you
just ask my friends
they say I'm so about you
buy you anything you want
Gucci and Saint Laurent
girl, you know what I am up
I'm just saying
Santa gon' be leaving 5 am
baby, I can pull up
it don't matter what time it is
I know it's Christmas Eve
but girl, you're all I need
I'll be there in one, 2, 3,
anything if I can get to you

it's cold outside when I am without you
but you make me feel so warm
baby, can't you see /2x
that I want you?
yeah, I just wanna be with you this Christmas
this Christmas /2x
