

Why Store, Your World

A little bit of buzz
Going round the circle
A little bit of buzz
That's what's happening here
Well I don't need your world
And I surely don't need your mind
A little bit of love
Going round the circle
A little bit of love
That's what's happening here
When you find your fortune, baby
You will find the answer to it all
When you find your fortune, baby
You will find the answer to it all
You will find the answer boy
You will find the answer girl
You will find the answer to it all
I'm a little bit buzzed
I'm going round in circles
I'm a little bit in love
That's what's happening here
