

Wide Mouth Mason, Once You Got It

Once you've got it
You can't get enough
Once you've got it
Once you've got it
You can't get enough
Once you've got it

Well I pushed you more than you pushed me
So you made it easily
In heaven as the human being
And you don't know what it means

Hurricane in the Garden of Eden
And the beauty make you faster
And when you leave you leave nothing
But you can keep your after

I said once you've got it
You can't get enough
Once you've got it

You get a taste and then destroy
What tasted so sweet
Run over most anything
When in the drivers seat

Well well well well....

100 names for what you want
And none of them are yours
Walk through walls but get to it
When you could use the door

I sing once you've got it
You can't get enough
Once you've got it

Once you've got it
You can't get enough
Once you've got it

Once you've got it
You can't get enough
Once you've got it

Once you've got it baby

Once you've got it
You can't get enough
Once you've got it

There's an ocean in you
Where you're going to
Wash away the dry in your mouth
That's drowning you

Once you've got it
You can't get enough
Once you've got it

Once you've got it
You can't get enough
Once you've got it
